MEDICINE.
Napoleon Bonaparte, one of the most powerful men in all history, was continually wrapped in schemes and campaigns, in plot and counter-plot, striving intently and ambitiously for success and power—a man whose utter disregard for human life made his battle the bloodiest that the world has ever seen—this man found bitterness in his triumphs because he had no heir to whom to bequeath his greatness. Josephine was divorced from a sickly mother. There is no reason why they should have such a thing as "female weakness." It is as unnecessary as it is distressing. Dr. Pierce's Favorite Prescription cures all forms of distinctly feminine sickness. It purifies, strengthens and invigorates. It is prepared for just this one purpose and no other. It's the only medicine now before the public for woman's peculiar ailments, adapted to her delicate organization by a regularly graduated physician, an experienced and skilled specialist in these maladies. It cannot do harm in any condition of the system. Its sales exceed the combined sales of all other medicines for women.

Every woman ought to send 21 one-cent stamps to pay for mailing a free copy of Dr. Pierce's thousand page "Medical Adviser." World's Dispensary Medical Association, Buffalo, N. Y.

POTOMAC FISHING.

Fishermen are looking forward to the coming spring season in anticipation of a good catch. The mild weather during last month brought out the fish, and even so early in the season those who operated small seines found their business very profitable. Although it will be about six weeks before the big haul seines are all in operation, some few shad and herring are being caught within a few miles of the city, more than have been taken so early in the season for many years. The catch of black bass in seines and trap nets has increased in recent years. Most of them are caught in the river in the vicinity of Annapolis Island. Occoquan bay and Accotink creek are also good places for the net fishermen to catch bass, for from these waters hundreds of bass are caught in nets with shad and herring, rock fish and perch.

Local fishermen are now busy arranging their nets and fishing appliances, for about the first of March a number of them will start for the several shores down the river. At Wind Mill Point, the fishing shore of R. A. Golden, and what is known as "The Gums," the shore of Theo. Ballenger, large haul seines are now in operation, the only large seines that are now in use down the river. The seines are taking rock fish, white perch and an occasional small catch of shad and herring, but at this season of the year they are operated principally for the perch and rock fish. In addition to these a number of small seines are being operated. These are what are known as "winter seines," and they furnish a plentiful supply of yellow perch and catfish as well as rock and white perch during the winter season. The season at the two large shores mentioned has opened so early that the dealers have put on the small boats to haul the fish, and no longer depend on the steamboats, but the steamboats bring all the fish from salt water and from most of the small seines along the river at different points.

Later on, when the small army of fishermen leave for the lower Potomac, Wm. Knight's well-known shore at Stony Point, opposite Glymont, will be in operation. This Golden's shore at Wind Mill Point are the only two large haul-seines that will be operated by steam power, the others using horses or men. Then the fisheries at Moxley's and Chapman's points, not far from Fort Washington, will commence operations. At Ragged Point J. R. Faunce & Brother will have their large trap seine in operation, while the shore known as "Marah Hall" and "Deep Hole" on Occoquan bay, as well as the trappers at Accotink creek, will also furnish a large quantity of fish for market. At the three latter places many black bass are caught throughout the spring and summer months. Already a number of them have been taken from Occoquan bay. Besides the shores mentioned, a number of other shores will be worked and, in addition to these, it is estimated that there will be at least three hundred trap nets in the river.

When all these are in operation there will be about two thousand men employed along the river, while about the same number will be employed at the business in this city and Washington, making a total of about four thousand men employed for a few weeks. This number includes the hucksters and their assistants who handle fish during the season when shad and herring are plentiful. In one haul at Ragged Point last week 2,000 herring were caught. This is said to be the largest catch of this fish so early in the season for many years. They brought \$25 a thousand in Washington, and later on they will sell as low as \$2 a thousand, and the sales will be slow. This season's catch of carp has been unusually large, and the fish have been of good size. During a wind-storm about two weeks ago, when the wind lowered the water on the marshes and along the upper river shores, a great many carp were left high and dry, and country people walked about in the mud and picked them up. It is said that about two tons of the fish were caught in this way.

Threw Away His Cane.
Mr. D. Wiley, ex-postmaster, Black Creek, N. Y., was so badly afflicted with rheumatism that he was only able to hobble around with canes, and even then it caused him great pain. After using Chamberlain's Pain Balm he was so much improved that he threw away his canes. He says this liniment did him more good than all other medicines and treatment put together. For sale at 50 cents per bottle by L. Stabler & Co., druggists.

Any tendency to premature baldness may be promptly checked by the use of Ayer's Hair Vigor. Don't delay till the scalp is bare and the hair-roots destroyed. If you would realize the best results, begin at once with this invaluable remedy.

A False Diagnosis.
La Grippe is confounded by many persons with a severe attack of catarrh, which in some respects resembles the former. These individuals suffer severely with pain about the forehead, eyes and ears, with soreness in throat and stoppage of the nasal passages, and in fact, are incapacitated for work of any kind for days at a time. These are catarrhal affections. Ely's Cream Balm has been used with the best results in such cases. The remedy will give instant relief.
